
Unduh 8 Launcher Exe Bandmaster Launcher.exe Command Line

```
E:\>f:  
F:\>setup.exe /?  
F:\>
```

Windows Setup

Installs or upgrades Windows.

Setup.exe [/debughelp] [/auto <upgrade; dataonly; clean>] [/quiet]
[/installdrivers <driver_folder_path>] [/noreboot]
[/installlangpacks <language_pack_folder_path>]
[/showoobe <none; full>] [/unattend:<answer_file_path>]
[/postooobe <setupcomplete.cmd_path>]
[/copylogs <destination_path_for_setup_logs>]
[/pkey <product key>] [/addbootmgrlast] [/Compact] [/CompactOS]
[/imageindex <index>]

/debughelp
Shows Windows setup help window with debug command line arguments

/auto <upgrade; dataonly; clean>
Enables automatic install with the corresponding migration choice.

/quiet
Suppresses Windows setup's user interface.

/installdrivers <driver_folder_path>
Instructs Windows Setup to install drivers from the specified location.

/noreboot
Instructs Windows setup not to restart the computer. This will only suppress the first reboot. Subsequent reboots, if required, will not be suppressed.

/installlangpacks
Instructs Windows setup to install language packs from the specified location.

/showoobe <none; full>
Instructs Windows setup to skip (none) or force (full) the Windows Out-of-box-experience.
